

Courses

At ARC, an important part of our service is education for mortgage professionals. We are dedicated to providing detailed information about settlement services to develop well-prepared industry professionals and borrowers.

These classes can be as brief as 10 minutes or last one full hour, depending on the audience and the time available.

Some of our topics include:

Understanding Credit Reports

Credit scores are vital in the mortgage industry. ARC will discuss the five main factors that determine a consumer's score, how to translate reason codes, and how to improve FICO scores.

Derogatory Credit

In this session we will discuss the process of disputing items with the bureaus, the effects of divorce and consumer credit counseling, and the dangers of credit repair.

ARC's Rapid Re-Score

Learn how this program can help your borrowers improve their credit scores and how you can close more loans. Our experienced staff will provide education and guidance to you and your borrower on the best course of action.

First Time Homebuyers

Many first time homebuyers are faced with a number of credit obstacles: Limited or no credit, derogatory items, and excessive consumer debt. ARC will discuss solutions to these issues and help you and your client achieve the goal of home ownership.

Appraisal Basics

This seminar provides mortgage professionals with an understanding of appraisal concepts, reports, and industry insights. The class will focus on understanding core appraisal concepts and terminology. We focus on the rules and regulations that govern the interactions between appraisers and other mortgage professionals
